What if I have insurance?

Anyone can use the card, but it can't be combined with insurance. You can use the card instead of insurance if:

- A drug isn't covered by your insurance
- Your insurance has no drug coverage
- You have a high drug deductible
- You have met a low medicine cap
- The card offers a better price than your copay
- You are in the Medicare Part D donut hole

What drugs are covered?

The card is good for prescription drugs, over-the-counter medicines and medical supplies if written on a prescription blank, and pet prescription medicines purchased at a pharmacy. You'll save on most, but not all, prescriptions.
