

Myositis Patient Centered Tele-Research (My-PACER)

An NIH Study @ University of Pittsburgh

Do you have polymyositis, dermatomyositis, or necrotizing myopathy that has been diagnosed by a physician?

If so, you may be able to participate in our research study to help improve myositis research.

Involves completing questionnaires, evaluation by study doctor and wearing a Fitbit device for one week each month for six months.

❖ COMPENSATION PROVIDED.

❖ NO STUDY DRUG.

❖ NO CLINIC VISIT REQUIRED.

❖ PARTICIPATE USING WEBSITE OR MOBILE APP.
